GENERAL SPECIFICATIONS FOR LAMINATE PRODUCT

WARRANTY- The manufacturer shall guarantee casework, materials, and workmanship for **TEN YEARS** from the date of delivery. Defects reported within the guarantee period shall be corrected without charge. See written warranty for details.

A. Construction Features

- (1) All structural components shall be 45 lb./cu. ft. industrial grade and meet or exceed the American National Standard for Mat-Formed Wood Particleboard, ANSI A208.1, Grade 1-M-2. All surfaces shall be covered with laminate and all edges are to receive edgebanding. Uncovered particleboard surfaces are not acceptable.
- (2) All desks and table tops shall be 1 1/8" thick particleboard surfaced with decorative laminate.
- (3) All desk and table tops shall be edged with 2 mm PVC edgebanding. "Self-edge" edges are acceptable if 2 mm color not available. Self edged product carries a limited **FIVE YEAR** warranty.
- (4) All door/drawer fronts and pedestal box components shall utilize laminate bonded to both sides of a 3/4" core.
- (5) Permanent interior components such as fixed shelves, dividers and cubicle compartments shall be a full 3/4" thick particleboard with laminate on both sides.
- (6) All modesty panels shall be 3/4" thick particleboard surfaced with laminate on both sides.
- (7) All **BOOKCASES** have 1 1/8" thick components, with the exception of the back panel. All adjustable shelves within a bookcase are 1 1/8" thick and edged with PVC edge banding.
- (8) **Drawer Construction**
 - (a) Sides, back, sub-front shall be 1/2" thick black vinyl covered particleboard. Bottom to be 1/8" black hardboard, inserted into side grooves and hot melt glue to seal and strengthen drawer. File drawers have 2 stringers underneath for added strength.
 - (b) The drawer fronts shall be removable and attached to the drawer box with screws from inside the drawer.

B. Hardware

- (1) Hinges shall be fully concealed self-closing, 110 degree swing (European style).
- (2) Drawer Slides shall be epoxy coated bottom mount with captive roller design and 100 pound dynamic load test rating. Full extension slides shall be available at an additional charge.
- (3) Adjustable Shelf Supports shall be metal, nickel plated, and mounted in a row hole system on 32 mm centers.
- (4) Locks - for full height and three quarter pedestals are to "Timberline" with numbered keys and to be with removable cores.
- (5) Levelers- All floor furniture is to receive a 5/16" threaded base leveler bolt and plastic glide. It shall be fastened into a metal insert nut mounted into the particleboard.
- (6) Hanging File Folder Frames- file drawers receive a metal hanging-file extrusion that mounts to the top of the drawer box. It shall allow free and easy movement of the files' arms over its surface. Also included is a 16 gauge metal bracket that receives a 1/8" thick metal bar, spanning the width of the drawer that allows the drawer to accommodate folders in a lateral fashion.

GENERAL SPECIFICATIONS FOR STEEL PRODUCT

WARRANTY- Construction specification meet or exceed all ANSI-BIFMA specifications for durability and safety. All steel product is backed by a **LIFETIME WARRANTY** to ensure long-lasting performance.

A. Lateral File Construction Features

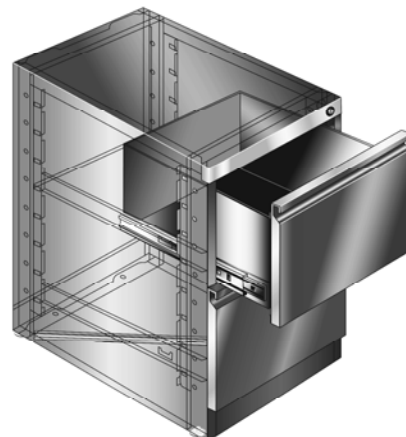

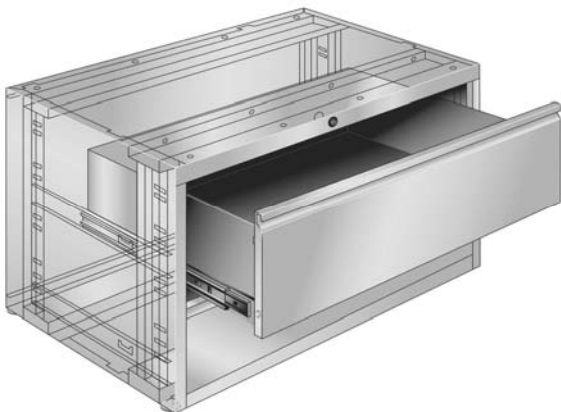

- (1) All welded steel frame construction, formed in key areas for strength.
- (2) 18 gauge inner frame, 20-22 gauge outer panels, cold rolled steel
- (3) Reinforced vertical and horizontal channels for dimensional stability.
- (4) All file drawers include all steel ball-bearing full extension slides with built in "anti-rebound" features to ensure smooth operation.
- (5) Safety interlock mechanism allows for only one drawer to be opened at a time.
- (6) Counterweights- factory installed and standard on all two, three, and four drawer lateral files.
- (7) Front to back bars are standard for all lateral files. Front-to-back bars must be ordered separately for combination file/storage units.
- (8) Product finish- epoxy-polyester powder, electrostatically applied paint.

B. Pedestal Construction Features

- (1) All welded steel frame construction, formed in key areas for strength.
- (2) Inner top and side pannel consist of 18-21 guage, cold rolled steel
- (3) Outer wrapper and drawer bins are 22 gauge, double walled 20 gauge drawers fronts on all box and file drawers. Lateral file drawer on file center only- doubled walled drawer front.
- (4) Reinforced vertical and horizontal channels for dimensional stability.
- (5) All file drawers include all steel ball-bearing full extension slides with built in "anti-rebound" features to ensure smooth operation. Box drawers upgraded full extension slides.
- (6) Product finish- epoxy-polyester powder, electrostatically applied paint.

C. Other Construction Features

- (1) UM Series locks (Series #226-426), black-faced, master-keyed, core removable.
- (2) Unless otherwise specified, all combination storage/file units feature central locking.
- (3) Full extension steel ball-bearing slides standard on all units.
- (4) Safety Interlock Feature- one drawer operation- standard on all units.
- (5) Double walled construction for all bookcases- bookshelf load capacities: 30"- 70 lbs, 36"- 85 lbs, 42" 100 lbs.
- (6) Storage cabinets with 18 gauge top and side channels with 20-22 gauge side/back panels & doors. Shelf load capacities: 30"- 90 lbs, 36"- 105 lbs, 42"- 125 lbs.
