Flexible Furniture Solutions

Office Furniture Educational Applications Work Stations Conference Furnishings

Ronnie Weissman

CREST Manufacturing Corporation, a company based in St. Petersburg Florida, is proud of its 42-year tradition of manufacturing quality laminate office furniture. Taking immense pride in the workmanship that bears our good name, we are fully committed to going beyond normal industry standards. As always, CREST continually strives to meet and exceed the expectations of our loyal and satisfied customers.

We are excited to offer our new catalog as your introduction to CREST manufacturing's line of office furniture.

sincerely,

Ronnie Weissman President

TABLE OF CONTENTS

STATIONS

CREST workstations provide for all of the unique tasks in today's workplace. For many, the office has become the home away from home. With the flexibility of CREST, your workstation can be tailored to your specific needs. The durability of CREST means your workspace can continue to look beautiful and remain functional for years to come.

1H127242

1H1210242 Sidemount Hutch

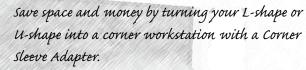

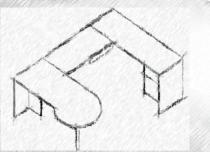

A lateral file top brings beauty and functionality to your workspace. Add counter-space that coordinates with the rest of your office setup.

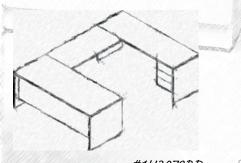

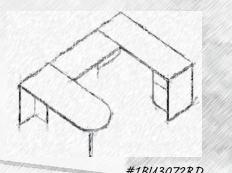

A thick PVC edge remains the most durable edge in the industry. Add beauty that lasts by choosing from a variety of standard color options.

SPECIFICATIONS

Gallery edges on Crest hutches add to the look and function of your office. Double your shelf space by using it to store books and binders or enhance the look of your office by utilizing it for display without having to worry about items falling off the back or sides.

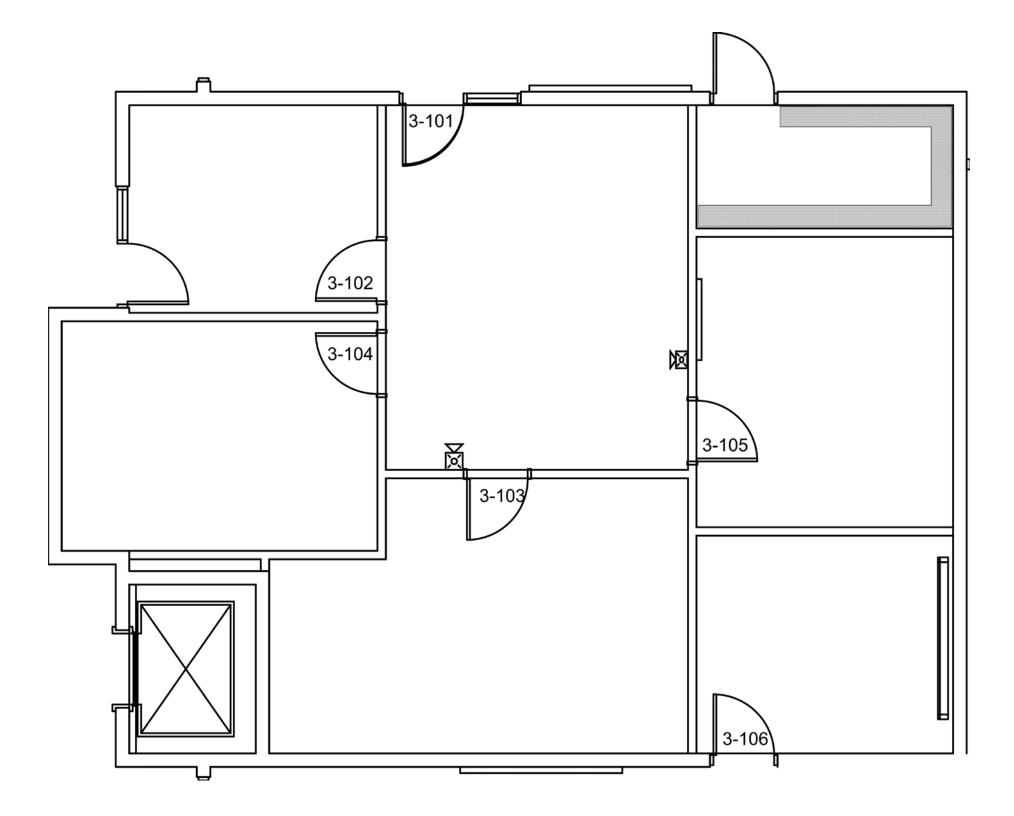

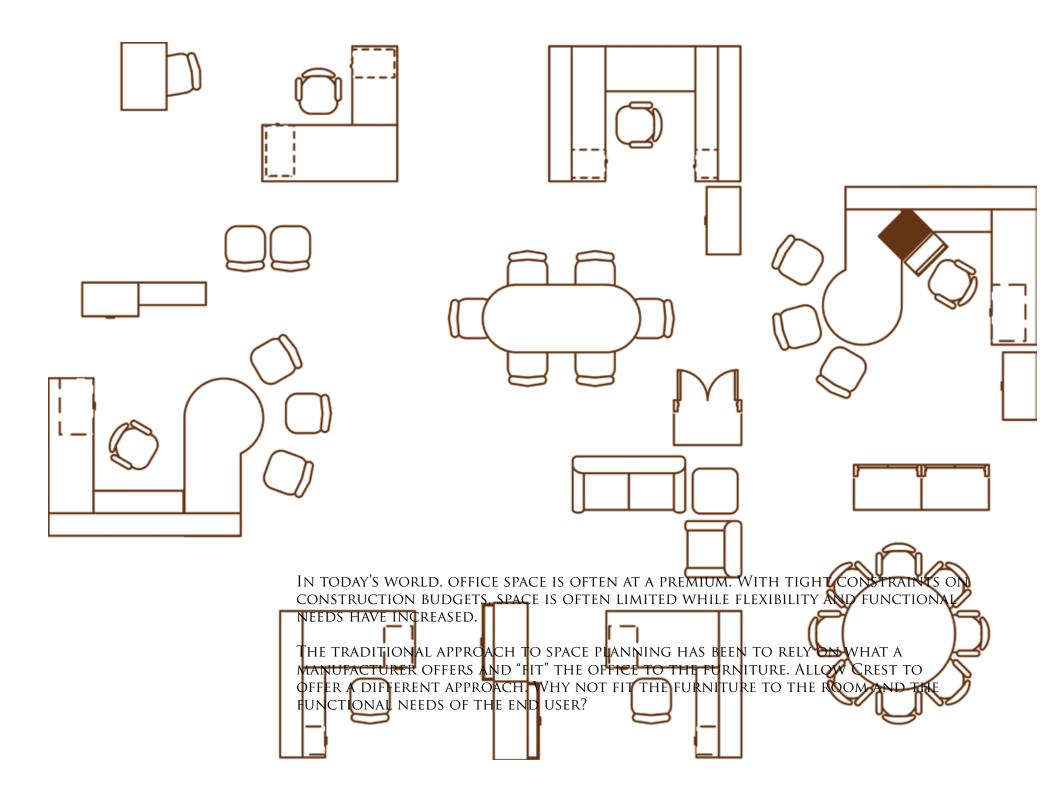

A fully enclosed 4-sided drawer pedestal means an enclosed base that allows for added security for a locked pedestal. Most importantly, it acts as a corner block adding structural integrity to your desk. Independent box. drawer construction means that the drawer front mounts to a four-sided compartment, providing structural integrity for years of smooth operation, unlike drawer fronts that are glued or routed to a three-sided compartment that can weaken over time.

Using 1 1/8" thick tops and panels does not just give our CREST product a good, solid look. It allows for a thicker core crust, better fastening ability, and gives our product the puncture resistance it needs to withstand institutional use. You will also not have to fear warping problems that inevitably arise with tops that are 1" thick or less.
